

Legese Fentahun

Electrical & Computer Engineer

My Contact

- prinfan6@gmail.com
- +251-922-265-964
- +251 -960490310
- Addis Ababa, Ethiopia

Hard Skill

- CCTV camera Installation
- Solar energy installation
- System administration
- Air conditioner installation
- Network installation and maintenance
- Fire alarm system

Soft Skill

- Team leadership
- Problem solving
- Team work
- Communication, highly sociable
- **Curious** for new things

Education Background

- Araba Minch Institute of Technology
B.Sc. in **Electrical & computer engineering**
CGPA **3.12** Completed in 2022
- Google coursera Certified by
System admin & Infrastructure Service
- Certified in **Solar energy** at DAN
energy Plc. in 2023
- Now I'm learning **Linux** Os

Projects

- LAN Network installation
- Solar powered IoT based farming

About Me

Dedicated and Curious Electrical & Computer engineer I have worked with two big technological institutions(Ministry of Innovation and Technology & Dan Energy Ethiopia) of proven experiences. Eager to apply both Electrical system & Computer system related jobs in monitoring, maintaining, Installing and configuring finally completing different tasks effectively such like Networking, CCTV, Fire alarm systems, Air conditioning & Solar energy. and also troubleshooting Computer based problems(both hardware & software).

Experiences

- Electrical system installation for homes & offices
- Electrical maintenance switches, Circuit breakers, bulbs & sockets
- Troubleshoot complex hard ware, soft ware and Network issues, Identify root causes of failures.
- CCTV Camera Installation
- Installation, administration, and testing of network devices, operating system software, hubs, routers, switches, cabling
- worked as system operator(at Ministry of innovation)
- Install Air Conditioning
- Sales & Delivery(I usually work on weekends)

At ministry of innovation and technology
